Action Information

Action: Record of Decision Document to grant full primacy approval of the State of Oklahoma's Public Water System Supervision (PWSS) Program Revision Package to include adoption of the Lead and Copper Rule (LCR) Regulatory Revisions and Clarifications.

Purpose: State of Oklahoma is revising its approved PWSS Program to include the adoption of the LCR Regulatory Revisions and Clarifications.

Background: The LCR Regulatory Revisions and Clarifications were promulgated October 10, 2007 (at 72 FR 57782). The State of Oklahoma is required to submit no later than December 10, 2009, a request to either adopt the rule or request an extension to adopt the rule at a later date. On August 3, 2009, the State of Oklahoma requested to adopt the rule, having submitted the necessary documentation in their PWSS program revision package. EPA has determined in review of the program revision package, adopting by Federal reference, that the State language adopted is no less stringent than the corresponding regulations.

Stakeholder Involvement: EPA is providing the public 30 days from [insert 30 days from publication in FR] the opportunity to request a public hearing for interested parties in determining to grant the State of Oklahoma primacy approval of the LCR Regulatory Revisions and Clarifications.

Legal Issues: EPA's policy in conducting reviews of State PWSS program rule revision packages are to be completed within 90 days. EPA has met the deadline and has no comments.

Internal Review: Internal Review of the State of Oklahoma's PWSS program revision package was conducted and EPA has no comments.

Deadlines: If no timely and appropriate request for a hearing is received and the Regional Administrator does not elect to hold a hearing on his own motion, this determination shall become final and effective on [insert 30 days from publication in FR]
